UNIVERSAL SCREEN MAGAZINE.

Issue No. 29—Released July 27.

The first subject of the Universal Screen Magazine, Issue No. 29 shows the only tea farm in the United States. This infant industry near Charleston, S. C., has made encouraging progress. "Things that happen only in the movies" is the title of the next subject, which shows a hayseed arriving in New York and receiving some remarkable views of the city done by a trick camera effect. How to make money last, is the third study and shows the washing of the bills of paper currency at Washington, which allows them to be used again. Some of the new submarine chasers are then shown. We see the construction of one of them in an American shipyard, from the first step to the launching of the hull. The latest in shoes, is the next subject and shows snake skins being used for these necessary articles, the price of which mounts steadily. A study in clay by Willie Hopkins, the Screen Magazine's sculptor completes the reel.
